This step shows the main structure of the model being built. The base is a green 16x16 plate. The structure is composed of red 1x4 and 1x6 bricks, yellow 1x4 and 1x6 bricks, and a black 1x4 brick. The structure is built on the green plate, with the red bricks forming the main walls and the yellow bricks forming the roof and some internal walls. The black brick is used for a small detail on the roof. The structure is built on the green plate, with the red bricks forming the main walls and the yellow bricks forming the roof and some internal walls. The black brick is used for a small detail on the roof.
